## SEEDS OF PROSPERITY

In the spirit of generosity, the Student Development and Activities Office, in collaboration with the Central Student Government (CSG), embarked on a heartfelt initiative to impart valuable life skills to the parents of Sullivan National High School in the City of Baliwag, Bulacan. This transformative event unfolded in two parts: a dedicated session on Financial Literacy and an engaging Tree and Vegetable Planting activity involving selected Grade 7 students.

The financial literacy session took shape as a beacon of empowerment for parents, facilitated by the insightful guidance of Mr. Sammy Pagaduan. His expertise illuminated the importance of financial literacy in even the minutest aspects of community life. The gathering became an interactive forum, where ideas and strategies were shared, fostering a collective journey towards financial literacy.

Simultaneously, the verdant grounds of Sullivan National High School became a canvas for environmental stewardship. With the invaluable support of Mr. Ronald Fabros from the Department of Environment and Natural Resources (DENR) CENRO III, plant seedlings were provided, and the significance of trees and natural resources was passionately discussed with the students. The Tree and Vegetable Planting activity not only connected the students to nature but also instilled in them a sense of responsibility towards the environment.

Though not grandiose in scale, this initiative was a resounding success. The collaborative efforts of the Student Development and Activities Office and the CSG were not measured in materialistic terms but in the wealth of knowledge shared. The belief that this knowledge could blossom into profound positive change for the Sullivan National High School community echoed through the event. It was a testament to the enduring impact of small, meaningful gestures, a narrative of empowerment and growth sown in the hearts and minds of students and parents alike.
